

# LINC-Connection

## More Secure Than Ever!

At Lincoln Maine Federal Credit Union, we take our obligation to protect our members seriously. That's why we're adding another layer of security to LINC-Connection. With True Factor Authentication, you can rest assured that we are doing everything we can to protect your online financial information.

### When Will This Happen?

True Factor Authentication will be put in place July 9, 2008.

### What Do I Need to Do?

The first time you log in to LINC-Connection after the new security has been added, you will be prompted to:

1. Create a user name to replace your account number for logging in.
2. Select a graphic image and enter a phrase to accompany the image.
3. Select and answer 3 security questions (out of 10 provided).

That's all there is to it!

Then, each time you log in with your user name and password, you will be presented with the graphic image and the phrase you selected. If this is not the image and/or phrase you selected, close out of LINC-Connection and report the incident to the credit union.

If the graphic image and phrase are correct, answer the security question shown to complete your login. It's that simple!

If you have any questions about True Factor Authentication, please contact the credit union at 207-794-8623.
